

29 April 2013

Iofina plc
("Iofina" or the "Company")
(LSE AIM: IOF)

Notice of Final Results

Iofina, a specialist in the exploration and production of iodine and specialty chemical iodine derivatives, is pleased to confirm that it will be publishing its Final Results in respect of the year ended 31 December 2012 on 7 May 2013.

About Iofina

Iofina specialises in the exploration and production of iodine, iodine specialty chemical derivatives, produced water and natural gas. Iofina's business strategy is to identify, develop, build, own and operate iodine extraction plants currently focused in North America based on Iofina's WET® IOsorb™ technology. Iofina has iodine production operations in the United States, specifically in Texas, California, Montana, Oklahoma and Wyoming. The Group has complete vertical integration from the production of iodine in the field to the manufacture of the chemical end products derived from iodine to the consumer and the recycling of iodine using iodinated side-streams from waste chemical processes in Europe, North America and Asia. The Group utilises its portfolio of patented and patent pending technology, proprietary methods and trademarks throughout all business lines.
