About Iofina:

Iofina specialises in the exploration and production of iodine, halogen based specialty chemical derivatives and produced water. Iofina's business strategy is to identify, develop, build, own and operate iodine extraction plants currently focused in North America, based on Iofina's WET® IOsorb® technology. Iofina has production operations in the United States, specifically in Kentucky and Oklahoma. It is a vertically integrated company, covering the process from the production of iodine in the field, to the manufacture of the chemical end-products derived from iodine, supplying them to the consumer, and the recycling of iodine using iodinated side-streams from waste chemical processes. Iofina utilises its portfolio of patented and patent-pending technology, and proprietary methods and trademarks throughout all business lines.
