Iofina Plc
("Iofina" or "the Company")
(LSE AIM: IOF)

Director Appointment

Iofina, specialists in the exploration and production of iodine and halogen-based specialty chemical derivatives, is pleased to announce the appointment of Frank Mermoud as a Non-Executive Director to the Company with immediate effect.

Mr. Mermoud has more than 30 years' experience in international business, facilitating trade and investment in both the public and private sectors. He has held senior international, economic and commercial policy positions within the United States Government having served as the Secretary of State's Special Representative for Commercial and Business Affairs at U.S. Department of State from 2002 to 2009. Mr. Mermoud is also a Non-Executive Director of Cub Energy Inc. an oil and gas company headquartered in Houston, Texas and Chairman of Precision Risk and Intelligence Limited a due diligence and risk mitigation company based in the UK.

Commenting on the news, President and CEO Dr. Tom Becker, stated: "**We are delighted to welcome Frank to the Board. Frank has a significant amount of international business and commercial experience through his time with the US Government, and throughout his career, and we look forward to him contributing his skills and knowledge to Iofina's growth plans. As a Non-Executive Director he will bring enhanced corporate governance and oversight to the Company as it continues to grow.**"

About Iofina:

Iofina specialises in the exploration and production of iodine, halogen based specialty chemical derivatives and produced water. Iofina's business strategy is to identify, develop, build, own and

operate iodine extraction plants currently focused in North America, based on Iofina's WET® IOsorb® technology. Iofina has production operations in the United States, specifically in Kentucky and Oklahoma. It is a vertically integrated company, covering the process from the production of iodine in the field, to the manufacture of the chemical end-products derived from iodine, supplying them to the consumer, and the recycling of iodine using iodinated side-streams from waste chemical processes. Iofina utilises its portfolio of patented and patent-pending technology, and proprietary methods and trademarks throughout all business lines.
